Noise

ADD
1 All VFR Noise Dept Turns are based from the ARP

2 London Biggin Hill Airport located close to densely populated and largely residential areas. In order to support extended op hrs that include night time ACFT ops, compliance with NPRs is required and is enforced by a Noise Monitoring and Track Keeping System (NMTKS).

3 ACFT failing to comply with NPRs and/or noise limits may be subject to additional charges as set out in the London Biggin Hill Airport Schedule of Fees and Charges. As with other London airports, frequent or repeated noise and/or track violations may result in a permanent exclusion from the AD

4 Calibrated Noise Monitors are located approximately 1 KM from the Rwy Thr and lie directly under the APP/Dep path. Additionally, a mobile noise monitor may be positioned anywhere from time to time deemed appropriate by the AD operator. Noise Sensitive Areas (NSAs) over Keston, Downe, Farnborough and Orpington are programmed into the NMTKS along with minimum heights set at each noise monitor.

VFR Dept Routes

DELETE All **ADD**
Rwy21 Dept
1 All ACFT Dept Rwy21 VFR are required to turn right, after passing AD boundary, to track 220°M

2 ACFT Dept to W via Kenley should continue to 1nm, before turning right and setting course, avoiding Woldingham & Warlingham;

3 ACFT Dept to E or NE via Sevenoaks or Swanley should continue to 2nm before turning left and tracking to the SE, remaining S and E of Tatsfield. A useful visual reference for the turn is to remain S of the Tatsfield golf course;

4 Once ACFT has left the ATZ, it should not re-enter the ATZ without the appropriate ATC clearance. ACFT intending to route to via Swanley should ensure that they arrange their flight in order to avoid the E limits of the ATZ whilst tracking NE. **Caution** – there may be numerous ACFT joining from the E

Rwy03 Dept
1 All ACFT Dept Rwy03 VFR are required to climb straight ahead until 1nm

2 Single Engined Piston ACFT dept to W via Kenley to make a left turn at 1nm en-route to leave the ATZ;

3 Jet, Turbo-Prop and Twin-Engine ACFT dept to W via Kenley to turn Left not before 1nm en-route to leave the ATZ;

4 ACFT dept E or SE via Sevenoaks or NE via Swanley, to turn Right at 1nm to leave the ATZ en-route. **Caution** – there may be numerous VFR ACFT joining from the E

5 ACFT dept to N, continue en-route but avoiding overflight of the Noise Sensitive Areas of Orpington & Chelsfield. Expect an early frequency change to the next agency, due to the close proximity of London Heathrow and London City CTAs;

6 All pilots must in all cases avoid overflight of the residential areas to the north and east especially Keston, Farnborough, Orpington & Downe.
